FALL 2020 REOPENING COMMUNICATIONS

COMMUNITY COMMITMENT

The wellness of our community is the social responsibility of each and every one of us. As a community and as a society, we have a responsibility to each other to do what is best for our collective whole. I/we, _____, commit to:

FOLLOW FEDERAL, STATE, AND LOCAL GUIDANCE.

All community members are expected to follow directives from national, state, and local authorities to maintain their own health and safety during this pandemic, both in and outside of school. These include Utah Department of Health and the CDC *Guide on Protecting Yourself and Others*.

CONTACT MCGILLIS IF A COMMUNITY MEMBER TESTS POSITIVE FOR COVID-19 OR HAS PENDING COVID-19 TEST RESULTS.

If a student, employee, or any member of their household tests positive for COVID-19, or is awaiting test results, the School (health@mcgillisschool.org) must be notified as soon as possible. This information will remain confidential and will allow the School to take necessary action to mitigate risk within our community.

As guidelines from the Utah Department of Health become available for how schools should handle COVID-19 infections, we will provide further details.

STAY HOME IF SICK.

Any community member showing signs or symptoms of COVID-19 must not come to school. Parents/guardians must keep sick students home and away from others and report the illness to the school (office@mcgillisschool.org). Provisions will be made to support students through remote learning.

STAY HOME IF EXPOSED.

Any member of a household who has been notified by the State Health Department that they were in contact with an individual infected with COVID-19 must notify the School (health@mcgillisschool.org) as soon as possible. Based on the circumstance, the community member may be asked to stay home for 10-14 days. During this time, the student will be able to attend classes remotely.

KEEP MEDICAL INFORMATION UP TO DATE.

All medical information must be updated with family and emergency contacts and current medical information for a student to attend the first day of school. Log into the Family Updates tab of your Veracruz Parent Portal to update your household information and your child(ren)'s medical information.

CONDUCT DAILY HEALTH SCREENINGS.

All students, teachers, and employees, whether in-person or remote, are required to conduct daily health screenings via the Auxs mobile app prior to the start of each school day. The School's Health Specialist will administer a health screening for anyone, including visitors, arriving at school without a health screening.

WEAR A FACE COVERING.

All members of the community are required to wear a cloth mask at all times while on campus. Cloth face coverings need to be laundered daily. If a student forgets their facial covering, a disposable mask will be provided for them that school day.

PRACTICE PHYSICAL DISTANCING.

All members of the community must adhere to recommended physical distancing guidelines. These guidelines will be made explicit through written communication, physical symbols (marks on the ground and signs), verbal reinforcement, and behavior modeling.

LIMITED CAMPUS ACCESS.

Parent/guardian entry into the school building will be restricted. Facial coverings will be required for essential visitors. All visitors are required to enter through our Main Entrance and report immediately to the Main Office where they will perform a health screening prior to giving visitors permission to move to another part of the school.

PRACTICE EXCELLENT HYGIENE.

Wash hands often with soap and water for at least 20 seconds - especially after being in a public place, or after blowing your nose, coughing, sneezing, or using the restroom. If soap and water are not readily available, use a hand sanitizer that contains at least 60% alcohol. Cover all surfaces of your hands and run them together until they feel dry. Avoid touching your eyes, nose, and mouth with unwashed hands.

AVOID UNNECESSARY TRAVEL.

All community members should review the CDC and Utah Department of Health travel health notices before undertaking any travel, particularly to international destinations. Depending on the status of travel guidelines and restrictions, students may be asked to self-isolate and attend school remotely for 10-14 days.

(As of 09/04/20)
The School will continue to assess, modify, and communicate school policies and protocols on an ongoing basis.
